

MODULE

PROGRESS

	<div>Introduction to Academy</div> <div>8 Sections Fundamental General</div> <div>This module is recommended for new users. It allows users to become acquainted with the platform and the learning process.</div>	<div>100% Completed</div> <div></div>
	<div>Learning Process</div> <div>12 Sections Fundamental General</div> <div>The learning process is one of the essential and most important components that is often overlooked. This module does not teach you techniques to learn but describes the process of learning adapted to the field of information security. You will learn to understand how and when we learn best and increase and improve your learning efficiency greatly.</div>	<div>100% Completed</div> <div></div>
	<div>JavaScript Deobfuscation</div> <div>11 Sections Easy Defensive</div> <div>This module will take you step-by-step through the fundamentals of JavaScript Deobfuscation until you can deobfuscate basic JavaScript code and understand its purpose.</div>	<div>100% Completed</div> <div></div>
	<div>Web Requests</div> <div>9 Sections Fundamental General</div> <div>Web applications provide a large potential attack surface and need to be secured properly. A firm grasp of the basics of how applications communicate is critical for anyone interested in learning how to assess and attack web applications.</div>	<div>100% Completed</div> <div></div>
	<div>Linux Fundamentals</div> <div>18 Sections Fundamental General</div> <div>This module covers the fundamentals required to work comfortably with the Linux operating system and shell.</div>	<div>100% Completed</div> <div></div>
	<div>Windows Fundamentals</div> <div>11 Sections Fundamental General</div> <div>This module covers the fundamentals required to work comfortably with the Windows operating system.</div>	<div>100% Completed</div> <div></div>
	<div>Introduction to Web Applications</div> <div>17 Sections Fundamental General</div> <div>In the Introduction to Web Applications module, you will learn all of the basics of how web applications work and begin to look at them from an information security perspective.</div>	<div>100% Completed</div> <div></div>
	<div>Attacking Web Applications with Ffuf</div> <div>13 Sections Easy Offensive</div> <div>This module covers the fundamental enumeration skills of web fuzzing and directory brute forcing using the Ffuf tool. The techniques learned in this module will help us in locating hidden pages, directories, and parameters when targeting web applications.</div>	<div>92.31% Completed</div> <div></div>

File Transfers

8 Sections Medium Offensive

During an assessment, it is very common for us to transfer files to and from a target system. This module covers file transfer techniques leveraging tools commonly available across all versions of Windows and Linux systems.

100% Completed

File Inclusion / Directory Traversal

7 Sections Medium Offensive

File Inclusion is a common web application vulnerability, which can be easily overlooked as part of a web application's functionality.

71.43% Completed
